Ex. Switch.Pole

long way:

if (SwitchPressed == true) {

  if (on == true) {
    on = false;
    false
  } else {
    on = true;
  }

}
Types of Operations:

- Sequential
- Conditional (branching)
- Iterative (looping)

Three loop statements:

while

do-while

for
while (cond) {
    loop body
}

Ex. SimpleLoop1
do 
  stmt1; 
  stmt2; 
  stmt3; 
  [ loop body ]
  while (cond); 

Ex. SimpleLoop2
